

Consumers demand high quality products. Having quality bedding, apparel, or outdoor recreation products is no longer an option, but a necessity.

IDFL's vast experience in filled products, labeling standards, and quality control, support your needs at any one of our three locations around the world:

- **Product Inspection** – Examine the products for flaws, construction quality, and overall workmanship; inspection completed according to client specific programs or a standard IDFL developed program
- **Label Verification** – Verify all of the information on the law label for accuracy and compliance with country regulations from around the world
- **Test Methods** – Strict adherence to IDFB, EN, JIS, GB, ASTM, AATCC, and other international test methods
- **Random Sample Collection** – Collect random finished products before they leave the manufacturer to verify products meet specifications and standards
- **Double Testing** – Completed on every sample by two different analysts to ensure accuracy

Testing, Inspection, Consulting and Research Excellence
