

What is an official IDFL Report?

IDFL has spent 33 years developing testing and data evaluation procedures. We are proud of our reputation for accuracy and integrity.

An “official” IDFL report is:

- Prepared on IDFL letterhead
- Issued from our IDFL headquarters in Salt Lake City
- Sent from the email address info@idfl.com
- Electronically signed by IDFL’s CEO, Wilf Lieber
- Secured with an special security code under the signature
- Made with a unique 8-digit IDFL report number e.g. 11-123456

What is NOT an IDFL report?

IDFL has discovered many reports that claim to be IDFL reports but are not issued or supported by IDFL.

Reports that are NOT official IDFL reports include:

- Forged IDFL Reports.
- Reports from suppliers who claim that their internal labs are IDFL-certified
- Reports from other 3rd-Party test labs who claim that their testing lab is IDFL-certified.

Are any other labs IDFL-certified?

No, IDFL has not certified any other laboratories. IDFL has provided some training to internal company labs. However, IDFL has never certified a lab to provide official IDFL reports.

IDFL reports are always sent from an IDFL email address and signed by IDFL’s CEO or other approved IDFL staff. Only samples sent to one of IDFL’s four offices will be processed and tested according to IDFL standards IDFL’s four offices include:

- IDFL Main (Salt Lake City)
- IDFL Europe (Switzerland)
- IDFL China (Hangzhou)
- IDFL Taipei

How can I verify that my IDFL report is real?

Please contact IDFL if you have any questions:

- Official IDFL reports always come directly from our IDFL headquarters in Salt Lake City.
- IDFL can identify authentic IDFL reports with the special security code listed on each report.

Does IDFL act as sub-contractor to other labs?

Yes, IDFL completes testing and provides IDFL reports to some other testing laboratories. If working with other labs for IDFL testing:

- Request “IDFL testing ONLY”.
- Request that the IDFL test number appear on the test report
- Confirm with IDFL that IDFL actually did the testing.

Is a report from CIQ Xiaoshan an IDFL Report?

No, a CIQ-Xiaoshan report issued from the Chinese government is NOT an IDFL report.

IDFL has a cooperative relationship with CIQ Xiaoshan:

- CIQ Xiaoshan provides compulsory Chinese government export and import testing and some commercial testing.
- IDFL and CIQ Xiaoshan have offices in the same building.
- CIQ has good partnership with IDFL and excellent staff.
- IDFL and CIQ work together on many projects.

IDFL contracts with CIQ Xiaoshan for some test procedures. However, IDFL always completes a double test in its own laboratories for every sample tested by CIQ.

Only reports with IDFL logos and IDFL signatures are valid, official IDFL reports. If you send samples to IDFL China for an IDFL report please send samples to:
